Education

Maharishi University of Information and Technology

July 2021 – May 2025

B.Tech in Computer Science (Specialization in Data Science)

Noida, U.P.

– CGPA: 8.3 / 10.0

– **Relevant Coursework:** Data Structures, Machine Learning, Big Data Technologies, Database Management

Work Experience

Woro

January 2026 – Present

Software Development Engineer

Gurugram, Haryana

- Worked on end-to-end development of SaaS products including AI Voice Calling System and AI-powered WhatsApp CRM.
- Designed scalable backend architectures and RESTful APIs using Laravel, Django, and Node.js.
- Handled full deployment and server management on AWS Lightsail for high availability and performance.
- Collaborated with cross-functional teams to deliver production-ready, scalable features.

Oga Business Solutions

November 2024 – January 2026

Software Development Engineer I

Noida

- Full-stack development using Django, Laravel, and React.js for internal tools and e-commerce modules.
- Built and integrated RESTful APIs, third-party services, and AI-driven features.
- Customized PrestaShop modules with seamless frontend-backend integration.
- Tested APIs using Postman/Swagger and followed Agile development practices.

IIT Delhi

August 2024 – September 2024

Data Analytics Intern

Hauz Khas, New Delhi

- Developed data models and applied Machine Learning techniques using Python.
- Performed data analysis and created interactive dashboards using Power BI.
- Optimized data processing workflows and extracted actionable insights from large datasets.

Projects

PG Management System | *React.js, Java Spring Boot, MySQL, JWT, WebSocket* [Live Demo](#)

- Built complete full-stack PG accommodation platform with role-based access and tenant lifecycle management.
- Developed responsive frontend using React.js and real-time notifications via WebSocket.
- Implemented room management, payments, maintenance tracking, and analytics dashboard.

College ERP System | *Django, Python, MySQL*

- Developed full-featured ERP web application with role-based dashboards for students, faculty, and admins.
- Implemented attendance tracking, result management, and secure authentication using Django MVT architecture.

Skills

Programming Languages: Python, JavaScript, PHP

Frameworks & Libraries: Django, Laravel, Node.js, React.js

Databases: MySQL, PostgreSQL

Cloud & Deployment: AWS Lightsail, Server Management

Tools & Technologies: REST APIs, WebSockets, JWT Authentication, Postman, Swagger, Git, Power BI

Certifications

- Advanced Google Analytics (Google Academy)
- Introduction to Generative AI (Google)
- MuiT Tech Titans – Upgrad (Scored First Position)
- Introduction to Career Skills in Data Analytics (LinkedIn)
